

**AMENDMENT TO H.R. 2401, AS REPORTED**

**OFFERED BY MS. Lowey**

Redesignate section 6 as section 7 and insert after section 5 the following:

**1 SEC. 6. NUCLEAR POWER FACILITY SAFETY.**

2       The Nuclear Regulatory Commission, for the purpose  
3 of preventing the release of radioactive pollution, shall re-  
4 quire each nuclear power facility operating under an oper-  
5 ating license or combined license obtained under the  
6 Atomic Energy Act of 1954 to prevent damage to reactor  
7 cores and spent fuel in the event of a loss of all onsite  
8 and offsite electric power for an extended period of time,  
9 or other physical damage, caused by simultaneous fires  
10 and combinations of the most severe natural phenomena  
11 (including earthquakes, tornadoes, hurricanes, floods, and  
12 tsunamis) that have been historically reported for the site  
13 and surrounding area with an adequate margin of safety.
